

**Product features:**

- Lightweight and compact
- Power Factor Correction
- DMX control
- Modular Construction

A very light and compact 6,000W ballast which comes complete with Power Factor Correction to minimise current draw and DMX capability as standard.

There are 3 output operating frequencies including 300Hz mode for High Speed shooting.

This ballast is constructed using Power Gems modular system which means the power circuits can be simply unplugged and even interchanged with modules from other ballasts in our modular range, such as the EB425P.
